

years ago, June 23d.

A Yes, when Mr. and Mrs. Hall and Mr. and Mrs. Gorsline drove to Lavalette; they came down to see about getting a place for their choir boys' camp.

BY MR. PALZER:

Q Summer camp?

A Boys' camp anyhow. Mrs. Stevens and I owned some beach front lots south of our property; I will tell you just how far it is.

MR. PFEIFFER: It doesn't make any difference.

A Well, some beach front lots which we offered to them for a site for the camp and we walked down to see them.

Q Where were they?

A They were six or seven blocks below our house on the beach front, quite a large plot down there, 250 - 350 feet. We offered this as a camp site for them and offered to drive a well so that they could get fresh water and for drinking/ washing, and erect an outbuilding for them, but they decided that it was not at all a suitable place on account of the bushes and grass and mosquitoes and you couldn't drive very close to it to bring tents and material and things down; so they gave up the idea of having the camp there.
